Location: Warsaw, Poland

Age: 26

### <ABOUT ME>

Hello! I'll try to introduce myself :) I have been working as a QA specialist for 3+ years and studying Management. I live in Warsaw and I like fast rhythm of this city. My interests are innovations, new technologies and testing of business processes. Also you can find some information about me, my skills and experience below.

### <WORK EXPERIENCE>

- **Software Tester in EY GDS Poland** (Warsaw, Poland)  
Nov. 2021 – Present

Project I'm working on is based on SAP software with mix of Data Analytics, Artificial Intelligence and Machine Learning features. Work is going on in Agile Development environment.

My responsibilities are based on: manual testing of Front and Back end sides of Application; Test cases creation based on analysing documentation; identifying, analysing and reporting bugs; interacting with Business and Development teams to define Test plans; support Test Manager with Test plan development; planning & execution of the regression tests; creation of certain data-sets for testing goals; demo presentation of tested features for client; introducing & supporting new joiners; creating & updating project documentation. Testing types: Functional & Non-functional, Smoke testing, Regression testing, E2E testing, Load & Performance testing, User Acceptance testing.

---

- **Functional Quality Assurance Technician in Testronic**

(Warsaw, Poland)

Mar. 2020 – Oct. 2021

Work experience in Agile managed projects with international teams. On this role my daily responsibilities are based on: exploratory or smoke testing of web & mobile applications, new features testing, retesting, giving feedback about certain program elements, bug writing reports, communication with Developers.

- **Software tester, Freelance** (Warsaw, Poland)

Nov. 2019 – Feb. 2020

First hands-on experience in manual testing working for ecommerce projects. Writing, reviewing and executing test cases according to the requirements analysis.

- **Internship in EPAM Systems** (Brest, Belarus)

Feb. – May 2018

I gained knowledge about processes, methodologies and models used in Software Development Lifecycle. Also I conducted several researches in team management and based my bachelor diploma work on them.

## <EDUCATION>

- **Warsaw University of Technology, Poland**

Master studies in Management

Oct. 2020 – Present

- **War Studies University, Poland**

Oct. 2020 – Jun. 2021
